Neighbourhood Plan Review – Progress Update

The NP Review Steering Group has continued to work on the review during the Covid lockdown, finalising the Green Gap Assessments and producing a comprehensive report. The next step will be to obtain independent validation of the assessments and report.

We have liaised with CDC to try and clarify any possible impact of their delayed Local Plan on our own NP, the proposed housing allocation and the progression of the review. Work also continues on refining and completing policies and amendments.

Progress, although slow, is being made despite the challenging circumstances we are all experiencing at this time. Stay safe.
